

AMENDMENT

In the claims:

Kindly amend claim 65 as follows:

65. (Amended) A method for constructing the molecule as defined in claim 63, said method comprising (a) preparing a DNA containing a protein coding sequence; (b) transcribing the DNA into RNA; (c) covalently bonding to the 3' end of the protein coding sequence of the transcribed RNA a chemical structure selected from the group consisting of puromycin, a puromycin analog, and 3'-N-aminoacyladenosine aminonucleoside; and (d) translating the RNA in a cell-free protein synthesis system, thereby constructing the molecule of claim 63.
